

Winchester Industries

Manufacturer of Highly Energy Efficient Replacement Windows and Doors

2013 WINDOW CERTIFICATION STATEMENT

Winchester Industries, headquartered at 500 Leech Avenue, Saltsburg, PA 15701, manufactures exterior windows and doors that meet or exceed the prescribed criteria as set forth in the Federal Economic Stimulus Package, The American Recovery and Reinvestment Act of 2009. The eligibility guidelines require that exterior windows and doors have both a U-Factor equal to or less than 0.30 and a Solar Heat Gain Coefficient (SHGC) equal to or less than 0.30 in order to qualify for a tax credit. The tax credit amount is now 10 percent of the cost of building envelope improvements, excluding labor costs and limited to \$200 for windows. There is a cap on the credit amount of \$500 for fiscal years 2006 through 2011 combined; if you have ever claimed this credit in the past, it counts against the \$500 limit (but does not affect the \$1500 limit available for 2009 and 2010). So, for example, if you claimed \$300 in 2007, you can only claim \$200 in 2011; if you claimed \$800 in 2009, you cannot claim any more credit.

When is it available? The home improvements tax credit applies for improvements "placed in service" from Jan. 1, 2011, through Dec. 31, 2013. The IRS defines "placed in service" as when the products or materials are ready and available for use – this would essentially always refer to the installation, not the purchase.

Winchester takes great pride in the fact that **100% of windows/doors being sold by most of our Bristol dealers are of the 4E configuration.** In addition, **80%** of all WI products sold meet or exceed the 2011 Energy Star Qualification. Not only does this mean a tremendous energy savings it also aides in stimulating the economy by putting money back into the homeowner's pockets. Specifically, the following WI Window and Patio Door products comply:

Models (Window/Patio Door Styles)	Glass Type*	Description**
Bristol 700 Triple Glass Series	4E	All Double Hung Configurations
Bristol 500 Triple Glass Series	4E	All Slider Configurations
Bristol 800 Triple Glass Series	4E	All Casement Configurations
Patio Doors: SL110-SL160, SL210-SL260	4E/LE	Patio Doors (Sliding Door) Configurations
Patio Doors: SL310, SL410-SL460, SL510	4E/LE	Patio Doors (Sliding Door) Configurations
Oxford 200 Triple Glass Series	4E	All Double Hung Configurations
Oxford 900 Triple Glass Series	4E	All Slider Configurations

* 4E (Windows & Patio Doors) = Triple Glass w/SolarBan 60 Low-E², Alpha-10 gas filled chambers and BR50 Warm-Edge Spacer System

LE (Patio Doors Only) = Triple Glass w/SolarBan 60 Low-E, Alpha-10 gas filled chamber and BR50 Warm-Edge Spacer System

** Additionally all models referenced above with or without grid patterns qualify.

Under penalties of perjury, I declare that I have examined this certification statement and to the best of my knowledge and belief, the facts are true, correct and complete.

Michael F. Sugrue
Vice President of Winchester Industries

Effective as of January 1, 2013

The following product(s) has (have) been purchased and installed in the primary residence of the said taxpayer:		
Homeowner's Name(s):	Social Security Number	
Primary Residence Address: (Street, City, State and Zip):		
Model, Glass and Description of Products Installed (See Attached WI Shipping Form Supplied By Dealer)		
Price paid for product portion of purchase (See Attached Dealer Contract/Invoice)	Date Purchased: / /	Date Installed: / /

This document is to be kept with proof of purchase (shipping form) and invoice with taxpayers income tax records. Do Not send to Winchester or Dealer where products were purchased.
